

AI Baby Observation Tracker

A simple 5-page printable tracker for parents who want to start today.

What this tracker helps you do	How to use it
Observe daily moments - words, movement, feeding, sleep, play, and emotions.	Write a few notes each day, then label observations by category and skill status.
Organize milestones so you can notice patterns over time.	Use the AI prompt page to turn your notes into simple activity ideas.
Build beginner AI skills like prompt writing, data labeling, and summarizing.	Bring concerns to your pediatrician or qualified professional. This tool is educational only.

Development areas to watch

Language - Motor - Cognitive - Social - Emotional - Feeding/Sleep - Sensory

Important This tracker is for organization, observation, and learning.
It does not diagnose, treat, or replace professional medical advice.

Daily Observation Log

Use this page to capture quick notes throughout the day. Small observations matter.

Date	Time	Observation / What happened?	Development area	Notes / Next step

Daily reflection

Something new I noticed today: _____

Something my baby enjoyed: _____

Something I want to support tomorrow:

Data Annotation Worksheet

Check the boxes that match each observation. This keeps the page clean and helps you practice simple data labeling.

Observation	L	M	C	S	E	FS	SE	NY	EM	PR	MA	Date
	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐	
	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐	
	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐	
	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐	
	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐	
	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐	☐	

Category legend	Status legend
L = Language M = Motor C = Cognitive S = Social E = Emotional FS = Feeding/Sleep SE = Sensory	NY = Not Yet EM = Emerging PR = Practicing MA = Mastered

Tip: One observation can have more than one category. For example, stacking blocks may be Motor and Cognitive.

AI Prompt Template

Use your notes to create a clear AI prompt. Copy the template below and fill in the blanks.

Prompt Builder

Act as an early childhood development helper. My baby is _____ months old. This week I observed: _____. My baby enjoys: _____. I want to support: Language / Motor / Cognitive / Social / Emotional / Feeding-Sleep / Sensory development. Please suggest 5 simple, screen-free activities using household items. Keep each activity under 15 minutes and explain what skill it supports.

AI response notes

Weekly Progress Summary

Review your week and choose one or two skills to support next week.

Week of:	Baby age:	Completed by:

New things I noticed:

Skills that are emerging:

Activities my baby enjoyed:

Questions or concerns for pediatrician/therapist:

Next week I want to support:

☐ Language

☐ Motor

☐ Cognitive

☐ Social

☐ Emotional

☐ Feeding/Sleep

☐ Sensory
